Councilor: Yolanda Moreno Aparicio

**Social Worker:** J. Emiliano Ramírez García

e-mail: [emiliano.ramirez@aspe.es](mailto:emiliano.ramirez@aspe.es)

The Social worker is the professional who deals with the problems of integration of the students in the school.

His functions are to support students, to act in situations of truancy, to promote correct schooling and to guide parents in situations that may be problematic for them to tackle themselves.

His intervention is carried out through interviews with families and with the teachers of the centers, being a link between the two systems or deriving the families to the appropriate resource, as well as with the different professionals who work in interrelated areas (Health Centers, Social Services, Service of Attention to the Family, ...)

The objective is to help achieve greater use of socio-community resources for the benefit and interest of the student and his own family.

He treats the problems of integration of the student at school, from pre-school to secondary school, as well as he provides guidance to families in problems related to education.

Support students, act in situations of truancy, promote proper schooling and guide parents in situations that may be problematic for them to tackle themselves. He acts as the link between families and teachers making interviews. His objective is to help achieve greater use of socio-community resources for the benefit and interest of the student and his own family.

Fields: Education, school orientation, enrollment, change of school, socio-educational resources, truancy.
